RAJIV GANDHI CHARITABLE TRUST

(Schedules for funds received from Rural India Supporting Trust, Bill & Melinda Gates Foundation, Public Health Foundation of India, Global Alliance for Improved Nutrition and Royal Commonwealth Society for the Blind)

Schedule 12: Statement of Significant Accounting Policies and Notes to Accounts

1. Background

The Rajiv Gandhi Charitable Trust ('RGCT') was established in 2002 and drew its inspiration from Shri Rajiv Gandhi's vision of inclusive growth and a better life for the underprivileged of the nation. The focal areas of RGCT include women's empowerment, healthcare and vocational training which are executed through three main projects, namely Rajiv Gandhi Mahila Vikas Pariyojana ('RGMVP'), Indira Gandhi Eye Hospital and Research Centre ('IGEHR') and Indira Prashikshan ('IP'). The Trust is registered u/s 12A of the Income Tax Act, 1961 vide registration letter number DIT(E)2002-03/R-415/02/680 dated 09.10.2002.

2. Significant Accounting Policies

i. Basis of preparation

The financial statements have been prepared under the historical cost convention on an accrual basis.

ii. Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities disclosure of contingent liabilities at the date of the financial statements and the reported amount of income and expenditure during the year. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates. Any revision to accounting estimates is recognised prospectively.

iii. Fixed Assets

Fixed assets other than land are stated at net written down value ('WDV'). The WDV represents cost of acquisition or construction less depreciation and impairment losses, if any.

Leasehold land represents amounts spent for acquisition and development of such lands paid/payable by the trust.

Cost comprises the purchase price and any directly attributable costs of bringing the asset to its working condition for the intended use.

iv. Depreciation and Amortization

Depreciation on fixed assets (other than leasehold land) is provided on written down value method at the rates specified in Income tax Act, 1961.

Depreciation on additions is calculated in the manner as specified in the Income Tax Act, 1961. Assets costing less than Rs. 5,000 each are charged off to the Income and Expenditure Account in the year of purchase. No Depreciation is charged for the year on assets sold/discarded.

Leasehold land is being amortized over the term of the lease.

BB

RAJIV GANDHI CHARITABLE TRUST

(Schedules for funds received from Rural India Supporting Trust, Bill & Melinda Gates Foundation, Public Health Foundation of India, Global Alliance for Improved Nutrition and Royal Commonwealth Society for the Blind)

v. Income

Income from Donation and Grants are recorded when the certainty of collection is established.

Donations for specific purpose are recognised in the Income and Expenditure Account on a systematic and rational basis over the periods necessary to match them with the related costs.

Donations related to depreciable assets are treated as deferred income which is recognised in the Income and Expenditure Account on a systematic and rational basis as and when depreciation is charged on these assets.

Interest income is recognized pro-rata on time proportion basis over the period of deposit.

vi. Employee benefits

Trust's contribution to provident fund and employee's state insurance is recognised in the income and expenditure account as they become payable. There are no other obligations other than the contributions payable to the authorities.

Provision for gratuity is determined using the projected unit credit method on the basis of actuarial valuation carried out at the year end.

vii. Provisions, contingent liabilities and contingent assets

A provision is created when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made. The Trust does not recognize assets which are of contingent nature until there is virtual certainty of realisability of such assets. However, if it has become virtually certain that an inflow of economic benefits will arise, asset and related income is recognized in the financial statements of the period in which the change occurs.

- Balance sheet and Income and Expenditure account has been prepared by extraction of financial figures related to funds received from Rural India Supporting Trust, Bill & Melinda Gates Foundation, Public Health Foundation of India, Global Alliance for Improved Nutrition and Royal Commonwealth Society for the Blind, from Rajiv Gandhi Charitable Trust financial statements.
- Since interest has been earned from donation received in foreign currency account, the same is transferred to Advance for Projects as it is directly related to specific grant and to be utilised for specific purpose.
